

--16. (Three Times Amended) A digital broadcasting receiver which displays video or a plurality of background information blocks indicative of program time when receiving digital broadcasting, comprising:

a display change controller which changes a background information block indicative of program time when the background information block indicative of program time cannot be displayed in full in a first prescribed zone; and

E1
cancel.

a full display controller which displays, in response to a predetermined selection, full program time information of the changed background information block indicative of program time in a second prescribed zone for any program regardless of whether the program is selected from programs currently being broadcast or from programs not currently being broadcast;

wherein the second prescribed zone is constantly displayed at a fixed position.--

--21. (Three Times Amended) A digital broadcasting receiver which displays video or a plurality of background information blocks each indicative of a program time period when receiving digital broadcasting, comprising:

E2
could

a display change controller which changes a displayed shape of a particular background information block indicative of a program time period when the program time period indicated by the particular background

information block exceeds a program time period which can be displayed in a first prescribed zone; and

*E2
cancel.*
a full display controller which displays, in response to a predetermined selection, a program start time and a program end time of the program time period indicated by the particular background information block in a second prescribed zone for any program regardless of whether the program is selected from programs currently being broadcast or from programs not currently being broadcast;

wherein the second prescribed zone is constantly displayed at a fixed position.--

*E3
cancel.*
--24. (Amended) A digital broadcasting receiver according to claim 12, wherein the second prescribed zone does not overlap any part of the first prescribed zone.

25. (Amended) A digital broadcasting receiver according to claim 12, wherein the second prescribed zone is constantly displayed at a fixed position.

26. (Amended) A digital broadcasting receiver according to claim 25, wherein the second prescribed zone does not overlap any part of the first prescribed zone.--
